Dear Ms. Whittington:

I do not agree with EPA's new plan for the Love landfill. The engineers for the county showed that the landfill is safe and that nothing needs to be done there. The only thing they said to do was to put a new cap over the landfill and watch the groundwater. EPA's plan is a waste of money and would make Armstrong and other companies spend a lot of money for no good reason. Some people might even lose their jobs. EPA should agree to do what the engineers said before.

Very truly yours,

Sandra H. Witt
